

## Just change

**STIHL Cut Kits with two replacement saw chains and a guide bar for chain saws and garden pruners**

Waiblingen, June 2022. STIHL Saw chains and guide bars stand for utmost precision and exact cuts. However, even the best saw chain becomes blunt over time and needs to be resharpened. If there is no time to do this while working STIHL offers a suitable solution with the new Cut Kits. The Cut Kits, which have been arranged tool-specifically for a variety of STIHL chain saw types and for the STIHL GTA 26 garden pruner, each contain two replacement saw chains and a guide bar. Thus, users always have the replacement cutting attachment optimally matched to their appliance at hand, even when on the move and can therefore quickly and easily change the chain - or the guide bar if required - of a chain saw or a garden pruner on site and continue their work without any major interruptions. The STIHL Cut Kits are available now from specialist dealers and online at [stihl.de](https://www.stihl.de).

**About STIHL**

The STIHL Group develops, manufactures and distributes power tools for professional forestry and agriculture as well as for garden and landscape maintenance, the construction sector and private garden owners. The product range is complemented by digital solutions and services. Products are distributed through authorized dealers and STIHL's own online-shops, which will be expanded internationally over the next few years – including 42 sales and marketing subsidiaries, about 120 importers and more than 55,000 servicing dealers in over 160 countries. STIHL produces in own plants in seven countries: Germany, USA, Brazil, Switzerland, Austria, China, and in the Philippines. Since 1971 STIHL has been the world's top-selling chain saw brand. The company was founded in 1926 and is based in Waiblingen near Stuttgart. In 2021, STIHL achieved a worldwide sales volume of 5.06 billion euros with a workforce of 20,094.
